Learning Together for a Better Future

31/1/20

We started the week considering our theme of sustainability and how all the major world faiths have something to say about looking after the planet and being responsible in our use of resources. We didn't have time to look at them all but did look at Islam, Christianity, Buddhism, Humanism and Hinduism and thought about our own beliefs and hopes.

Year 5 had a brilliant time at the Globe Theatre where they took part in a workshop on the tragedy in Shakespeare's Macbeth.

We are saying goodbye to Santana today, who works in Year 6, we thank her for her years of service and wish her luck in her totally new career.

We are having many concerns regarding children's use of the internet outside of school. Some of the younger children are playing games that are not suitable for their age and they are using language in school that is not appropriate for their age or developmental stage. We are also being told about quite serious misuse of social media, especially 'What's App' messaging, leading to falling out and upsets in school. Advice is that these messaging platforms are **not** for primary aged children, but most importantly, it is so vital that parents monitor really closely what children are doing and saying, if they decide to allow them to use them. I really cannot stress enough how quickly these group messaging situations can get out of hand and become isolating, unkind and harmful. Please take time this weekend to consider what your children are doing and have a look at their phones and online usage.

Today - at the children's request - we are having a cake sale to raise money for the Australian wildlife that has suffered in their recent bushfires.

Have a lovely weekend.
