

# We are Scientists

**Wow** what a great Science Day we just had. Lots of exploring and discovery happening all over the school.

## HOMWORK PROJECT

We want you and your families to go **science mad!** Here are some ideas – How many can you complete?

- Invent something using junk modelling
- Go to the Science Museum
- Have a go at some science experiments at home. There are some great websites including the Science Museum webpage to help
- Create a poster or drawing on your favourite thing from Science day
- Research a famous scientist and create a presentation
- Anything you like!

Take photos of what you did and bring in your posters, models etc by **Friday 3<sup>rd</sup> October.**

**GOOD LUCK**
